Hemet Police Department arrested me this morning and forced me inside a patrol handcuffed I am a Federal Worker abused daily by the Hemet Police department I am a disable senior with doctors note of my disability. I require special accommodation in the sense that I have to take medications and are drowsy. I wait until symptoms pass to safely drive. I have no records of causing accidents. I had driven to the Apaloosa park Hemet, Ca at 05:30 A M TO TAKE A WK AND SIT AT THE park table feeling slightly sick. I suffer of Hypertension I took medication and few minutes after felt slightly dizzy. I got inside my van parked on the curb at the corner of Trotter st and Apaloosa in front of the park. Few minutes had passed when I felt a police officer Nikot, grabbing me from the driver seat placing my body against my vehicle grabbed my neck with one hand while handcuffing me with the other hand. My shoes fell, I was pushed inside the police patrol without shoes, I was not allowed to pull my purse nor documents of identity. I was locked in Hemet Police Department until 03:00 P.M. There was no explanations given, no phone calls allowed. At that time, I was handed 675.00 fine ticket stating is the third time therefore fine is larger. I never had been arrested before. Where do they get the falsehood of disorderly conduct or drunk ess. I never have had a DUI. A release from arrest Was handed stating that I had been found intoxicated causing disorderly conduct. There were neighbors at Trotter and Apaloosa watching. They have never seen me causing disorders. I go there to study by myself quietly. My van was towed. To release the vehicle Hemet charged 200.00 and Hemet Desert towing 260.00 on August 20 2020, my van was carjacked from private property by Hemet Police Department one day before I started to work. The fees 200.00 to Hemet Police to release my vehicle and 670.00 to CAL State Towing San Jacinto, CA to get the vehicle back. On Monday September 01, 2020, black man rushing bloque my way while turning in a cul de sac in Gilbert St. Hemet, CA. He folded forcefully the driver's mirror and tossed a piece of cloth on the windshield. I called police department. Was yelled at by the distpacher stating my name indicates is the same crazy that has called before. On Saturday, September 05, 2020, I was garrassed by a Gatekeeper security Guard while I had just ended my shift work in a federal device, and had arrived from Wincos from using the restroom to the parking lot. I called the security guard office and I was yelled at by the same guard and threatened with arrest stating that I am an impersonator false federal worker. I HAVE NO CRIMINAL RECORD, BUT IT SEEMS HEMET POLICE DEPARTMENT AND RIVERSIDE LAW ENFORCEMENT ARE STRIVING TO STAIN MY CHARACTER. I HAVE DISABILITIES AND TAKE MEDICATION FOR DIFFERENT ILLNESSES INCLUDING BROKEN BONES, VISION, HYPERTENSION, ETC. I HAVE MEDICAL DOCUMENTS STATING I HAVE TO ACCOMMODATE MY NEEDS DUE TO MEDICATION. Since I filed divorce against a Riverside County sheriff in 2004, my life has suffered the persecution of law enforcement in the whole county and is obvious that I am under the scrutiny cameras devices of police. Every time I get pay or I get an extea little money, the police has found ways on how to extract from my pockets the earnings of my sweat. I got paid yesterday and I received MYUSA passport. I had plans to go visit relatives and take care of health matters. Immediately, the police appears expenses to destroy my economy. I have been denied housing. I have to use my vehicle to rest. Police appears with flashlights at middle of night banging the windows. I am a professional and student. It seems there gas been comments made inside the police stating that if I plan kids, they will be taken by Child protective services. I plan to become pregnant without marriage on my own. Is obvious they track what happens in my private life and in my pockets everyday. Vdeos of years and photos are available. I fear of shootings, fire, or a major accident as the persecution in town by strangers obviously directed by police is obvious. I have been verbally assaulted and wherever I park, there suddenly appears someone flogging trunks and doors of vehicles to keep me under a level of violence 24 hours a day.
