Well, unless President Trump calls for martial law, guess I'll be in D.C.

Going to be a target rich environment.

I built a 20mm anti-tank rifle. I didn't beg for permission. I didn't read anything about 'tax stamp'. I have no idea what that is. But, I'm making WWII era sub machine guns.

Why do I need 'permission' if I live in a country where I am supposedly allowed to do as I choose?

Besides, our courts are unable to articulate their choice by refusing to hear any evidence regarding voter fraud. A 5yo could've pointed out the irregularities.

Maybe Roberts is owned by China. If I don't see his resignation, soon. Bad things happen to good people.
