TRUE	04/16/20 11:48 AM	Other Agency	Essential business not follow	Other	Public Housing Authority	Anacortes Housing Authority	719 Q Avenue	Anacortes	Residents of AHA HUD properties are failing to observe social distancing and stay at home orders, and the Anacortes Housing Authority (AHA) is refusing to take steps to implement or encourage a safer environment. Daily, children from multiple tenant families, as well as children who do not live on the property but are here as guests of tenants, play together on the property playground, with little adult supervision. Requests to AHA that the playground be designated as closed have been refused as they claim it is not their responsibility to police the activity of residents. Daily, multiple families are inviting non-resident guests onto the property to congregate and socialize in the common outdoor areas and inside their private units. Multiple resident families are socializing together in common areas as well, eating outside together on the picnic table and leaving food and garbage behind. AHA again has refused to take any action, saying it is not their responsibility to police the activities of residents. HUD guidelines published 04/14/2020 (https://www.hud.gov/sites/offices/housing/documents/HUD_Multifamily_Corona_OA_FINAL.pdf) state: "(G2B). "Owners and agents may have the authority to restrict visitors from HUD-assisted Multifamily housing properties and should review state and local laws to determine the permissibility of banning visitors."

TRUE	04/16/20 1:54 PM	Other Agency	Essential business not following social distancing requirements	Other	Grocery	Fred Meyer	Lakeway St	Bellingham	I am considered high risk and went to Fred Meyer on Lakeway in Bellingham this am during the 7 am to 8 am period. I was surprised and frankly appalled to see only about 60% of the staff and vendors stocking shelves and throughout the store wearing masks. Keeping 6' away from someone stocking the shelves where the items you need are located is not possible. I tried. I asked one of the employees about masks and they said the company is not supplying them. "My mask protects you, your mask protects me" is a slogan that could be helpful here, too. I strongly request that you mandate masks for all people who work with the public. Food is not optional and the wait times for ordering your groceries just for pick up is now a week. Many of us will continue to need to go out to stores, so more protections would be appreciated and probably helpful. I also had to ask the cashier and bagger to use hand sanitizer before starting to ring up my order. I would have thought such a step would be automatic, as it is at Costco. Since Costco is doing a much better job with sanitation, so it's clear that each company is on their own in telling employees how to protect themselves and the customers.	jbright@comcast.net Jane Bright 6177552130 jbright@comcast.net

TRUE	04/16/20 6:29 PM	Other Agency	Business function performed	Construction		City of Camas	616 NE 4th Ave	Camas	The city of Camas, WA is just now breaking ground on a non-essential large infrastructure project in defiance of the Governor's Construction Guidance Order released just the other day. Local city officials are well aware of the Governor's Order and have specifically released a press release yesterday to attempt to frame the work as essential in defiance of it. In 18+ months of prior preliminary actions to try to get this project approved, the city has never once expressed urgency beyond this being an "improvement project". The city now claims that should this work not proceed, that our intersection will "soon reach failure" having never said that before yesterday. This intersection allows access for the major roadway through our town, should construction block that route, thousands will be left unable to evacuate efficiently during an escalation of current conditions or other emergency. Thank you for your swift attention on this as we are especially concerned for the health and safety of the workers that will be pressured into doing this work in defiance of both the governor's "stay home, stay healthy" proclamation and the "Construction Guidance" Proclamation. TRUE	04/16/20 7:25 PM	Other Agency	Essential business not follow	Other	Higher Education	Spokane Community College School of Nursing	1810 N Greene St	Spokane	Spokane Community College. College of Nursing, restarted in-person learning by allowing nursing students to shadow RNs working in the Birthplace at Sacred Heart Medical Center. With a full department and nurses already struggling to maintain proper social distancing at a small nurses station with limited computers, 9 nurses had 8 students shadowing them beginning 4-16-20. With the addition of 2 necessary ancillary staff, this leaves 7 computers to be shared between 19 people in an approximately 20 feet x 10 foot space. Nurses are unable to maintain any level of social distancing with their students shadowing them, or limit interaction with new mothers and newborns with students entering and exiting multiple rooms repeatedly. This situation isn't safe for the students, the nursing staff, or the patients. Since the start of the pandemic, we have desperately tried to limit the amount of foot traffic on and off of the birth department to protect ourselves and our patients, and to suddenly have students thrust into the mix creates an unnecessary safety issue in a specialty department that is not an essential clinical learning area for generalist nursing students during this public health emergency. We would respectfully ask that the governor ask the SCC College of Nursing to find alternate ways for students to spend their obstetric clinical time, until the threat has passed.

My family shops here, and we've noticed that there is really no regard at the store for social distancing—especially at the registers. A cashier told me that management said they were limiting the number of customers to half of the store's capacity, but no one seems to be counting the number of people going in and out. "Capacity" might be counting the non-grocery section as well, which is not where most of the customers are. This cannot be considered an essential service when so many of us are not working! They are not cleaning essential businesses but peoples homes. This is a luxury item not a necessity-! Almost all the cleaning businesses in Seattle are still operating if you call them. When I read the guidelines on the Governor's website I read only essential cleaners for essential businesses not your routine house cleaning. These people are going from house to house and putting themselves and home owners at risk. If this is actually considered an essential business operation than we all should go back to work. Maybe the governor should announce in one of his press conferences that the essential business operations doesn't apply to these kind of services along with weekly lawn mowing services!! I see trucks all over town mowing residential lawns. I know they work outside but their employees are traveling all over going into gas stations to fill equipment etc!! I can see them being available for a dangerous tree ready to fall but lawn mowing??!! Please mention this in one of the pressers. If these cleaning businesses don't get shut down then I'm re opening too! If we all don't do our part the rest of us doing it will be out longer!! If Boeing isn't essential in our community than a house cleaning and lawn mowing better not be or were all being dumb by staying home.			smile@thacleaning.com

TRUE	04/17/20 12:54 PM	No Agency	Non-essential business is open	Other	PRINTING	Alphagraphics Seattle	3131 Elliott Ave Suite 100, Si Seattle, WA	Hello. I am an employee of Alphagraphics Seattle. This is a company that has been in operation since the implementation of the stay home order and I have become aware that our company has been performing non-essential work along with the work that it claims to be essential (no documentation has been provided). I have been told that the company has been deemed essential and that they have 14 skeleton crew workers performing all types of work. In reaction to the current crisis, they laid off half the company permanently and have temporarily laid off others (including myself) until the stay home order ends. Upon review of the Stay Home Stay Healthy order, I do not see how the company could meet the criteria for an "essential business" and have not received any official documentation of the company's designation as an essential business. The company has not specified what we do that is essential. I have been temporarily laid off due to the order with an expected return date of May 5th (after the order ends), but they are now asking that I come in Monday (4/20) to perform what I believe to be non-essential business activities. I have asked for official documentation from my company of this essential business designation, but have not been provided with it. Could I please be provided with official documentation so I know that showing up to work would be lawful? It is not clear to me why I have been temporarily laid off if coming to work this whole time would have been lawful.	evanlangford@gmail.com	Evan Langford	5052707529	castemler@alphagraphics.com

Pet grooming is listed as non essential and is remaining open during this time. The pet salon I work for in Sarnamansh is not following proper guidelines regarding the safety and wellbeing of their employees and their guests. They are not providing the proper PPE nor are they properly disinfecting the lobby in between customers. They are not following the 6ft rule of social distancing and despite being told we can only allow 2 workers in the salon at a time they are allowing 3. I'm extremely disappointed in the carelessness and blatant disregard this company is showing to combat the spread of covid-19 at this time. The officer on the driver's side went right up to the window and spoke to the driver 1-2 feet away from his face without wearing a mask. I called the east precinct to inquire why officers weren't abiding by social distancing or wearing masks to protect the public. The last few days I have noticed it has been crowded! Like no one cares that there's a pandemic going on. I know my store manager certainly doesn't. Shoppers will come right up to your face and start talking to you. I've had it happen to me on multiple occasions in the past few days. I've talked to my coworkers, and they don't feel safe as well as how crowded Costco in Kirkland is. I'm worried for the health and safety of my coworkers, people shopping, and myself. They are providing gloves, and face masks for employees, and they have markers on the ground that measure out to 6 feet, but it doesn't matter when there's 400+ people in the store every hour. Please stop by and see. Thank you.

This is reckless and unsafe for both library staff and the homeless. Library staff were sent home during the pandemic therefore we are not essential staff and this should not change because Jenny Durkan wants us to work as bathroom monitors. A much safer option would be to have the city add port-a-potty's in addition to the many Parks and Community Center bathrooms that are already going to be opened. Library staff should not have to put their lives on the line when there are safer solutions. The Library is also taking advantage of lower-paid staff by asking one of its lowest paid classifications, Library Associate IIs, to do this work. They are not asking shelves or librarians. LACs are customer service clerks. Not hazmat workers or bathroom monitors. Please tell the City and the Seattle Public Library that this is a violation of the stay-at-home order and this is unsafe for workers and the homeless alike. In the last couple of days, I've noticed some construction trucks showing up and looking over the property. Hard to tell what they are planning. My concern is that they will start on the second half of this project which will involve opening up the building envelope of the school. I find it hard to believe that this is essential given that there is no reason it cant be put off til later. Also, the few construction workers who have showed up in the last couple days are not masked and are not social distancing. In any event the contact person at the School Department is Mark Emelko according to the schools contact info on the web. I believe his number is 206-452-9972. I believe a Jim Sheidup is the owner of the construction company, 206-940-7140. I trust if the work is deemed essential they will not impact the residents. My house is right next door. I would appreciate someone looking into this. I'd rather not wait until the old windows start coming out. At that point the building envelope would already be compromised. Changes you may notice: * Our Crew Members have a new look! We know you are used to their bright smiling faces however during these times they will be outfitted with face masks, safety glasses and protective gloves. * Our vacuums and trash enclosures will be closed until further notice because of the high traffic they receive. * We ask all of our customers to stay inside your vehicles and enjoy the ride! We will take care of the rest. Bush Car Wash will be operating as a drive through model only for the time being. * We will also have limited staff for the time being to be able to practice social distancing however our Crew will always make sure to provide the same great wash you have all come to appreciate. TRUE	04/2/20 2:29 PM	Other Agency	Essential business not following social distancing requirements	Other	School District	Concrete School District #11	45389 Airport Way, Rm #101 Concrete	Marla Reed, the Food Services Director, is bringing in volunteers to package meals that are being delivered to families. There have been several instances where I have observed 10+ (possibly as high as 15 or more) people working in close quarters in the cafeteria. Typically less than half of them are even wearing masks. Furthermore, this is a job that can be done by the EMPLOYED kitchen staff. It's reckless and infuriating that EXTRA people are being brought in when there is absolutely no need for this.	concernedaboutcovidmonica	I care about employee's health and safety.	wbarrett@concrete.k12.wa.us, mreed@concrete.k12.wa.us	
								What's also ridiculous is that kitchen staff has been berated for not being productive while being forced to stay at the school after their essential duties have been completed. So it's even more frustrating that volunteers are being brought in to do a job they could be doing.				
								Like I said above, kitchen staff are being forced to stay at the school after their job is done and there is nothing "essential" left for them to do. This extends to maintenance staff as well - being forced to stay after performing essential duties. They even wanted kitchen staff and bus drivers to paint the school among other unimportant tasks. Thankfully the Union has intervened there. I personally don't think painting is an essential duty that is worth risking lives for.

									Starting Tuesday April 21st, all Bush Car Wash locations in Tri-Cities and Walla Walla are open. We have listened to the advice of local authorities and will also be following guidelines of our Governor. That being said, you may notice some temporary changes that we have put in place to keep our Crew and Customers safe while cleaning your vehicles.				
									Changes you may notice:				
									* Our Crew Members have a new look! We know you are used to their bright smiling faces however during these times they will be outfitted with face masks, safety glasses and protective gloves.				
									* Our vacuums and trash enclosures will be closed until further notice because of the high traffic they receive.				
									* We ask all of our customers to stay inside your vehicles and enjoy the ride! We will take care of the rest. Bush Car Wash will be operating as a drive through model only for the time being.				
									* We will also have limited staff for the time being to be able to practice social distancing however our Crew will always make sure to provide the same great wash you have all come to appreciate.

TRUE	04/22/20 9:23 AM	Other Agency	Non-essential business is open	Other	Governor	WA State	416 Sid Snyder Ave SW	Olympia	Mr. Insee, I'm very disappointed in your handling of this State. Decisions were made without prior thought and pre-preparation. Issues have raised due to your lack of insight as to the potential consequences that would arise due to your shut downs. 1. Unemployment - before you even planned to shut businesses down, you didn't use the forethought to meet with Washington State Unemployment officials to update and initiate the applications so many persons would need due to the coronavirus pandemic. Systems have crashed, many are still waiting for pending checks, some are having to appeal decisions (No checks coming in) all because the applications do not address your shut down and stay at home agenda. Those that did state being on stand by for work, were not given an option of stating (due to the coronavirus) on the application. Your initial date of April has now been extended, and placed many people past the basic standby question, now being forced to do 3 job searches a week, file with Work Source and look for work or be denied their claims. How can people look for work when places are shut down? Why would someone affected by the virus shut down be forced the added burden of job searching and looking for work when they already have a job and are simply waiting for you to allow them back. 2. You didn't preset up guidelines for safe, sanitary social distancing work places for all, and a web sight Non essential business is open.	charles.sauvageau@yahoo.com	Charles Sauvageau	360.259.1716	Jay Insee

Now there's a report, here is the link. https://www.washingtonpost.com/business/2020/04/21/boeing-workers-are-wary-factories-reopen-after-coronavirus-lockdown/ That MY HUSBAND is an experiment to see if going back to work is safe????????? What the hell? They are putting my husband and me at risk! My husband has a heart condition and I have a compromised immune system. I can't believe they are using the employees as an experiment. I am beyond pissed and disappointed in this system. RENTON has NO work! This has to be looked into. This is horrible. Please, look into this. My husband and other workers are NOT an EXPERIMENT!!!!!!! TRUE	04/22/20 5:39 PM	Other Agency	Essential business not following social distancing requirements	Other	Benton County Sheriff Dept.	Benton County Sheriff	7122 W Okanogan Pl. bldg B Kennewick		Other: Benton County Sheriff dept has clearly stated that they have no ability or jurisdiction to follow up or take any action on reported cases of COVID related violations. Unlike Franklin County, this feels more like either confusion or bad information rather than a stubborn political stance. But regardless, they say they will not get involved and that the only option is to contact the WA A.G. I'm listening to Gov. Inslee and very much appreciate the clear statements he is making about Franklin Co, but it sounds like he believes other local law enforcement agencies are "plugged in" and active, so I wanted to raise awareness that this is not the case in Benton County. Given the "independent" thinking of so many people over here, I think we really need visible, local, effective law enforcement for COVID 19 violations. Seriously, I agree with guidance for people to social distance, stay home if possible, wear masks, and for high risk people to be very careful... but using threat of force to impose these draconian policies is unconstitutional and unAmerican. But what takes the cake is this snitch line they setup so people could report on their neighbors and local business. It's a page right out of Nazi Germany!!! Oh, and if they try to make the argument that its justified to destroy the lives of tens of thousands of small business owners o save one life then WHY DONT YOU BAN AUTOMOBILES AS ALMOST FORTY THOUSAND PEOPLE DIE IN CAR ACCIDENTS EACH YEAR IN THE US!!! I have reported this business several times via this form and to local law enforcement and NOTHING IS BEING DONE. The owner has not been properly filing "emergency" permits, continues to run the business, as usual, THE ENTIRE TIME DURING THE STAY AT HOME ORDER and nothing being done. This process is an absolute joke and honestly what was the point of me complaining when this isn't being taken care of at all or looked into? How about look into all the business done during this time stretch, the 20-30 employees working in close proximity daily, and the day-to-day functions of the business. Each day the business runs, as usual, there is no way proper permits or "work done" has been an emergency repairs period. Jay Inslee's stay at home order many public venues across the Tri-Cities are still full with people in them. At Badger Mountain many hikers could be seen hiking the trails Sunday afternoon. Many of them not worried about the possibility of getting sick. "You get close to someone when you are passing them on a trail but you are there for a few seconds," said Maury White. "You don't get too close you stay as far away as you can out in the open air, I don't feel that this is risky at all." At the dog park down the street you can see many dogs running around in the park. Just as many dog owners can be seen as well, these owners feel the park is big enough to social distance. "I'm glad the dog parks are open and it's big enough for everyone to stay apart from each other and the dogs can play," said Kim Hanson. At Horn Rapids Athletic Complex not even a locked gate could stop a softball game from happening. Two full teams were pitching, batting and keeping score. These players believe that playing ball with friends isn't any worse than going to the store. "I mean there is a lot less people here than at a grocery store you see all these people lining up at Already reported and nothing happened. Lots of Airbnb's active in the Alki Beach area of West Seattle! Call them to find out. These are residences in the middle of neighborhoods. TRUE	04/27/20 12:22 PM	covid19complaints@ini.wa.g L&I	Non-essential business is open	Health-related business		Cascade Complete Care	26331 143rd Ave SE	Kent, WA 98042	Incident DescriptionAn older home being remodeled into a 6 bedroom home for elderly seniors. Construction was going on all last week (possibly started late the week before). After hearing the governor's orders Friday, I believe no construction should have been going on during those days, and I'm sure the guidelines specified were not being met. I observed the owners take advantage of a situation involving work being done by a company for our water department earlier this year. Work remodeling the home had been stopped for several weeks while we had stay home orders, but they resumed work this past week, adding several windows, working inside (lots of construction noise throughout the week) and on what used to be a garage door in the front of the home. Also, an electrician was there Friday afternoon (24th) doing work on the side of the house - no mask. Cascade Complete Care is their company name, and they run another home in Renton. Two generations are involved, so I'm not sure who the official owner is: an older couple, David and Olimpia Powell and their daughter, Bianca and her husband Row - I think last name is Shankar. The older couple are, I believe, Romanian and somewhat limited in ability to speak English. Bianca is probably the best one to talk to. Her phone is 425-770-7375. Any neighbor has heard the noise the past week and observed work going on. Violation of current state laws.	elizabeth.wagner7@hotmail.com	Elizabeth Wagner	4258944413	Olimpiapow@gmail.com

TRUE	04/27/20 9:53 PM	Law Enforcement	Essential business not following social distancing requirements	Other	Smoke Shop	Holy Smoke	1566 E Olive Way	Seattle	The shop seems to function as a hub of sorts for a lot of the neighborhood's less-than-stable residents. Since social distancing measures were implemented, the presence has actually increased. There are regularly groups of people entering and exiting the shop, and the square footage isn't nearly adequate to allow more than a couple people in while remaining 6ft apart. Often there are also gatherings just outside the door and in the alleyway just to the north, comprised of the same clientele. Nobody wears masks, ever. In an altercation I overheard earlier today, a man threatened to cough on someone as a means of aggression. Basically it's all just really gross and definitely not on the up and up. And not that this is your area, but I'm pretty certain the shop may also be operating as a base for at least one dealer. Signs point to meth, and/or heroin. The patient made it clear that they needed to receive the car/extraction the day they arrived because the patient and wife had to travel over an hour to get to the dental office. Aspen Dental took Xrays and did a brief oral exam. The patient was given a treatment plan for \$1,700 for non-essential dental work. The patient said he was only there for an extraction. They told the patient they didn't have time for an extraction and to come back in 2 days or go to the Gresham office the next day where the patient would have to pay another appointment fee. They are taking advantage of patients in pain and giving them outrageous treatment plans but not actually doing the urgent care on first visit. This is their business model. Before the pandemic Aspen Dental has a policy to never do any treatment on the first visit. That's when they give the patient the overpriced and unnecessary treatment plan then they force the patient to come back. They are continuing this policy even during the shut down. They are exposing patients to non-essential assessments to push these treatment plans but aren't actually doing the essential work that needs to be done on the first visit.				kaisagardds@gmail.com

TRUE	04/30/20 7:59 PM	No Agency	Essential business not following social distancing requirements	Restaurant or food service business	Safeway	Sunset Center	Bellingham	So I reluctantly went into the Sunset Safeway Tuesday afternoon, and was pretty stunned by almost NO EVIDENCE WE ARE IN THE MIDST OF A PANDEMIC. A quick count, before I gave up in disgust: 57 customers without masks, 5 with, with less than half of the employees wearing masks. Both workers in the fish and meat counter had masks, but were wearing them BELOW THEIR NOSES! I asked the woman helping me why, as politely as possible, and she said it was "too loose", and proceeded to adjust and fuss with it, touching her mask, face, chin and forehead, then using the same gloved hand to grab my fish off the plate! Of the 3 pharmacists, one had a mask, one had a mask decoratively worn scarf-style (presumably to warm her neck?), and one had none--and these are people who come in close contact with patrons who are sick. I saw at least 15 elderly customers who I would say are high-risk, and while a few had masks, many did not, and those wearing masks were not wearing them in a manner that would really seal out contagion. I spoke with the manager, but really, who I would like to speak with is the mayor- why is there not a mandate to wear masks in public? Other communities have done so across the country, and Whatcom county is clearly a center of contagion, so why not here? What is wrong with people that they don't understand that there are silent spreaders, and masks simultaneously protect all who wear them? It is a shameful statement on our community. TRUE	05/01/20 11:58 AM	No Agency	Non-essential business is open	Other	Photography	S. C. Jones Photography	Kettle Falls Kettle falls	Hi Everyone! I'm the owner of S. C. Jones Photography. Initially I put my photo shoots on pause for this whole pandemic, but I think photography is so important, especially when life is different and changing. I want to offer a special chance for you and your family to document this unique time. A time that's slowed down and people are at home and together. Usually we don't think of taking family photos until some exciting event happens or every member of the family is home... but I think we should be taking photos to document all the aspects of life: the good, the bad, and even occasionally the boring. So, for the remainder of this pandemic, I will be offering "Porchtrails" (Porch Portraits). For only \$50 I will come to your home, and you and whoever you wish to join you can gather on your porch (or right outside your home) and I will photograph you for about 10-15 minutes, to capture this rare time in your life that you can later look back on either in longing or in gratitude that it ended! To continue abiding by social distancing I will be taking payment through Venmo wherever possible. ***Also a super good idea for a Mothers' Day gift!*** So send me a message and let's remember these times! We do not believe it is time to reopen for business and resent its become so politically polluted. We appreciate your assistance in this matter. Tim Bush has opened his non-essential Bush Car Wash business. He has multiple locations. He alleged he opened his West Richland location to service city police cars. The city reports in TC Herald they did not request him to open. This particular location is across from Mr. Tim Bush's other business also opened Roasters Coffee. Roasters might be open under essential food service though. ONI Y serves coffee/drinks. This West Richland location is adjacent to RESIDENTIAL and attracts UNNECESSARY travel and has been cause of increased traffic in community. Our home is in residential area behind Roasters Coffee, our home address is under City of Richland. Richland has failed to support stay home orders. We asked city Richland mgr. office for reasonable support by placing electronic traffic reader boards in increased high traffic areas in this case it would be on Keene Road & Kennedy its inoperative & easy to monitor with message Stay Home Stay Healthy. include # of cases & # of deaths to no avail. This shop and other gun stores in the area are making this a political soap box with ongoing discussions in person and on social media; it is offensive that so many are fighting a life or death situation while others are focusing on their personal political agendas ignoring the real threat and failing to prioritize what we are currently facing. What is even more concerning is the example they are setting as they make it publicly clear that they require being addressed specifically through written statement stating that Gun Shops are in fact not essential before they will comply. Please address this issue one way or another so that there is not an example of willful disobedience without consequence; the rebellious entitlement on display is escalating and it is truly concerning to witness.

It is unclear from how many people will be present. Some of these churches state in their bulletins that a priest and/or staff member will be present, which may violate social distancing. Some parishes are also hosting scheduled private prayer time. These prayer appointments are scheduled back to back, so there is insufficient time to fully sanitize the church. TRUE	04/17/20 10:39 AM	No Agency	Business function performed that is non-essential	Other	Self service car wash	Car Wash Palace	655 NW 85th St, Seattle, WA	Seattle	This self service car wash is attracting crowds most days. I don't believe that cleaning the outside of one's car is an essential business. Patrons are not practicing social distancing while using the car wash, and are consecutively using the self-service car wash equipment without disinfected between customers. The business manager is only on site intermittently. Few are using the only arguably "essential" service of the car wash, which I would believe only would be an air pump. This essential portion could easily be separated physically from the car wash portion. Katie Moore told all of her sales team they were being payed off with the exception of her sales managers and her finance managers. Katie wants them there to still sell cars! Katie said she required them to be there 7 days a week, but the next day she changed it to Monday through Friday! A customer went to one of Katie Moore's other ealerships and someone from her other store told that customer that "they can not be there, Speck at Hyundai". Katie Moore lairs off her sales staff but kept her sales managers and finance managers onboard to sell cars at Speck GMC on Clearwater ave! My husband refused to stay onboard during this critical time, the store, the sales managers and the finances guys call my husband for finance help when he is supposed to be off work. And the boss Katie Moore keeps asking them when my husband will be into work. and does not need to harass my husband at home because he will not be at work during this crisis! When all the other dealerships close to sales to the public, why is Katie Moore putting at risk the sales managers and finance teams to keep her business going to the public. The only part of her business that should be there is her repair department, but she is not doing that. I am not sure if her other dealerships are open to business. If folks stay home for 2 weeks we can beat this. I also saw an older guy on the job coughing and spitting right next to the others. She has told me of a number of issues that do not seem to comply with the current mandates. First and foremost, the fact that Starbucks is allowed to consider themselves an "essential" business is far beyond accurate; coffee can be obtained at a number of different businesses that are ACTUALLY deemed essential, such as grocery stores and gas stations, it can even be made at home. In addition, three of her managers have been out sick over the last 4 weeks, her shift supervisor, her assistant manager and her store manager. Two of which were out of work for several weeks, one whom has yet to return to work at all, and two of them both being said to have COVID-19 symptoms and cases. This has yet to have been brought forth to the team, and is at risk of putting the customers they serve at risk, let alone the fact that my daughter has not been able to see either of her grandparents during this time. The store has not been cleaned and sanitized since these managers have been sick.

They have also taken children from their parents that did not meet the guidelines Inisle outlined in court. They took 14yr old Alexis Totten for a well exam when she is current on healthcare and healthy she also did not want to go. They have moved Emily Totten and Jet Totten thru 4+ placements when they were not physically abused, sexually abused, emotionally abused or neglected by their Mother. They removed the children without conducting an investigation when no sign of immediate danger was present. DCYF also trespassed on private property without responding to an emergency and forcefully removed the children. The King County/Woodinville police also assisted in this violation of rights On May 22nd 2019 they placed Alexis Totten in a group home for commercially trafficked children and caused her severe emotional distress even though she is the kindest, most well behaved teenager you could ever meet or hope to have as your own child. Removing happy well adjusted children during a time of crisis against the governors instruction of what constitutes necessary non-court ordered removal is an immense violation of parents and children's rights. Also making social distancing impossible for the parents as well as causing extreme emotional trauma for these children. There were no signs at anytime or evidence abuse, drug use, or neglect. Yet they still went against orders removed the children against the families request basically punishing them for Employees are required to work in a small, enclosed area with over 10 employees and not allowed to preform social distancing. As long as all people remain in their vehicles and do not open their windows, I am not concerned. However, with that many people gathering, I do not see how that gathering can be effectively monitored unless there is a police presence there to enforce safe social distancing. I am Roman Catholic -- and I cannot attend Church services except via live streamed services I am watching from my home. For us Roman Catholics, to be deprived of reception of the Eucharist is very, very difficult -- yet we are abiding by the Governor's directives to the letter. I am concerned there will be violations, and our hard efforts to slow down the spread of Covid-19 in our State will backfire from possible violations from this large gathering this Easter Sunday. And I think the Church hosting this gathering at the Casino can provide Live Streamed Services just as we have been doing. I do not want any more people to die from Covid-19 because of a particular Church group possibly placing so many at risk. So I am requesting either a ban on that gathering, or a police presence to enforce the Governor's Order to the letter mandating safe social distancing -- which means for everyone to remain in their vehicles and to keep the windows rolled up. With the coming warm weather and sunshine predicted this Easter Sunday, I don't think that will be possible, so I believe this gathering needs to be banned. TRUE	05/08/20 11:55 AM	No Action	Essential business not following social distancing requirements	Health-related business		Tri Cities Laboratory	7131 Grandridge Blvd.	Kennewick, WA 99336	I waited outside in a line 6ft. apart & with my mask on, waiting for facility to open. I was able to enter with no restrictions as to how many of us were to enter. I found myself in this very small facility, NOT 6 ft. apart from the next person. There were NO 6' markings on the floor. We had to sign in & wait to be called to give our information to the clerk. There was NO hand sanitizer after I signed in with the pen. There was NO Plexiglass barrier at this sign-in desk. There were NO signs regarding coronavirus safe practices that I could see. There were NO provisions for seniors posted that I could find & seniors are the most vulnerable. I mentioned to several staff personnel that this was not a safe environment and that I felt safer in the grocery store. I was told that there was nothing they could do and was given a card with another facility that I could make a complaint to. I had to wait to be called to give my personal information and had a choice of sitting down in this cramped area or go outside and wait 15-20 mins. I did not want to lose my place to be called, so I chose to wait inside with everyone else there. It was uncomfortable sitting so close to people. When I got home I called Grandridge PSC (509.736.0100) & talked with Sherril. She said she would talk with the staff re: my complaint. We also discussed the possibility of using "beepers" so people can wait outside in safety and not lose their place in line. My concern is that there are no signs alerting a person to being Covid19-safe, and there are no provisions for safe distancing & safe practices once inside. I felt very much violated in this unsafe	jcleary@gorge.net	Judith Cleary	509.378.2895

TRUE	04/13/20 11:28 PM	covidenforcement@cb.wa.gov	LCB	Business function performed that is non-essential	Other	Retail Store	Target	3310 S Meridian	Puyallup	Target should not be allowed to have other non essential departments open. Toys and electronics are not essential. Other states have ordered closures of these non essential departments in Target and stores like Walmart and Fred Myers. Why are they still open in Washington? Having them open allow people to continue doing and hanging out in stores where they should just be used for essential items. The online ordering and pick up can still be open but the departments should be roped off in the stores. Do the right thing because they way this is now is only putting workers at risk. Also, when you actually respond to me on this it is helpful to actually give me information about what was decided and what complaint you are referencing so I know where it stands. TRUE	04/03/20 2:53 PM		No Agency	Business function performed that is non-essential	Other	Big Box Stores	Costco, Walmart, Target,	Silverdale	Silverdale	There are a number of "big box stores" that are FULLY OPEN because part of the store sells "essential items" like food. Since the NON-essential items constitute "an attraction" that generates more pedestrian traffic in the store, ergo, more opportunity for person-to-person contacts. These non-essential areas should be able to be roped or otherwise partitioned off. Yellow police tape??? As an aside. Tried calling a number I was given to ask the question, 1(360) 900-4111 but got "number has not recognized". Another an aside. Note: the last time I was at Costco was 1.5 weeks ago so conditions may have changed; also, have not been to the other stores. Tried calling Best Buy to see if they were open (as a check) but couldn't get a definitive answer. Web page indicates they are open but also indicates customers can pick up on-line orders, so don't know if that is what is meant by "store hours". If stores that compete with Costco, Walmart, etc. have to be closed then that would create a competitive disadvantage for them.	heron1@comcast.net	John Nantz	(360) 779-3494

I went to Fred Meyer today for some home goods and was appalled that perhaps a few more safety measures have been put in place (plastic guards by cashiers, designated spots to stand in line), the store is crowded. It was my choice to go in and I did and wore a mask. I will not go back. I feel terrible for the staff, on the front lines working in these conditions. Other stores as I said in Bellingham monitor crowds, Fred Meyers does not or at least I have not observed that it does. To what end? At what cost? This caused large crowds of people coming into the store to make purchases throughout the entire working, causing huge concerns for the workers. The number of customers was not controlled outside of the building whatsoever, therefore, any customer was able to enter the store at any time. This violated the six feet order put into place and created a large amount of customers in the store at a time, putting the workers at an even higher risk. Many employees were enraged by the end of the day that their safety was not being taken seriously by management. Some were in tears from being so angry with what was being allowed to happen. TRUE	04/17/20 11:53 AM	No Agency	Essential business not following social distancing requirements	Other	Home Depot	7345 Delridge Way SW	Seattle	When I visited on 4/15, the front aisle running directly adjacent to and perpendicular to the line of checkouts, both manned and self, which were themselves all proximate to each other, was significantly obstructed with multiple goods displays (basically those big cardboard boxes that masquerade as display cases). And this in a store that is, even under normal circumstances, undersized and unreasonably overstuffed with goods. The front aisle goods displays essentially prevented formation of orderly lines with social distancing and even the ability to recognize where lines should form for that purpose. The effect was to have people standing in an essentially disorderly mass that, at best, would permit only roughly parallel straggling lines less than 6 feet apart from each other. This situation could have been avoided by not displaying more debris for sale in that front aisle, which I can attribute only to stupidity or greed. The employee who was barking out ineffectual orders amidst the chaos was wholly unresponsive to my direction that those displays be removed from the front aisle. Please note that the store was quite busy at the time. If this location will not operate appropriately, then I believe it should be shuttered for the time being. By contrast, the Southcenter Home Depot location has always seemed to be operating well, so this is not necessarily a whole-corporation problem but, specifically, a Delridge problem.	chornerplic@outlook.com	Charles Horner	206-412-2154	Home Depot, Atlanta, GA

I saw flagrant disrespect at their customer service counter where 5 or more were congregating. Even one employee who was not doing anything but standing around for 10 minutes or so was in the mix. As if that wasn't enough, a woman with dark hair, almost black in a pony tail came right into this mosh pit of people. I'm expecting this store to have an outbreak and I don't feel safe there anymore. When I confronted them on how conglomaterated they were, they seemed oblivious and murmured something about "we try" -- "we do the best we can". These people are with the public all day long, day in and day out, and are set up to be carriers within the employee group and to all the public that they routinely step into their space. So I took a photo--the dark haired gal through a fit as she didn't want her privacy violated. I asked for the PIC and proceeded to load up my stuff. A young man came out, claiming to a PIC at that time (6pm 4/11/2020). I told him how willful, atrocious and repeated the violations of the law were at the store. He started intimidating me by coming into my space, demanding to know what I had purchased and that I delete the photos. All he cared about was demanding photos. If they open the doors, people will come who might not BECAUSE of their addiction, plus it's a social thing and we have a very friendly staff. But is it essential? Absolutely not, by FAR, and many people come to our casino, including many daily. As you know, the Chelan, Washington, area is known as a fantastic destination people come from all around, and many from beyond Washington state as well, of course. Please, I beg of you, Governor Inslee, I know this is not what you want so very fast, please intervene with the tribal council. The Coville Tribes casinos (all 3 opening up May 19th - Coville Dam, Omak, and Chelan/Manson) are full of germes! As much as maintenance crews would try, I wouldn't conceive that they could keep all those coronavirus possibilities at bay, especially with the air ventilation system. They're even saying there will be a limited supply of masks available for the patrons. AH!!!! As you know, this could have horrendous ripple effects in our state and beyond. Many of us have done so well with prevention thus far (it's been a month since I've gone anywhere), I don't want to have a ruinous backward effect. Thank you for anything and everything you can do on this - I am grateful for your 4 phase plan and want to see that carried out, even with the nonpayers! TRUE	05/04/20 7:13 PM		Law Enforcement	Essential business not following social distancing requirements	Health-related business	Rite Aid	Rite Aid	220 36th St	Bellingham	I was wearing a mask, standing still, a safe distance from the cashier stand waiting for someone who was helping me with an order. A man in a uniform (store security or firefighter?), navy blue, short-sleeved shirt, emblem on his sleeve, brushed past me. He was so close, he may have touched me. He was not wearing a mask. As he brushed past me, he spoke to me. The Rite Aid was almost empty so there was NO need for him to come so close to me. He could have easily walked around me at a safe distance. He seemed impatient. Problem: 1. He was too close to me 2. He wasn't wearing a mask. 3. He spoke so there was potential spread of saliva. I don't know what his uniform represented. It happened very fast, and I was distracted by the business at hand. I reflected on it as I drove home. By the time I got home, I was outraged. It happened Sunday, May 3, 2020, around 11 AM. I'm 77 yr old with heart arrhythmia. I have tried very hard to protect myself and others. I have obeyed Stay Home-Stay Healthy scrupulously. This man put me at risk for no apparent reason. None of the employees in the pro-shop where you purchase driving range balls was wearing a mask. I expected the use of every other driving range tee to be the best practice as stated online. Once I arrived, the JP employee asked me if I wanted him to move a tee mat in one of the vacant tee boxes in between two other customers. I told him I'd wait and follow the guidelines. As I waited for an empty tee, he filled every tee box with a mat and by the time I was finished hitting my balls, every single tee box was full and not one customer was wearing a mask. Very disappointing and frankly creating a dangerous Covid-19 problem for these customers. If we are not going to be responsible and change our behaviors, we require more regulations to ensure we do. He is violating the United States constitution and overstepping his boundaries. This man has destroyed small businesses and crippled the Washington state economy. Being someone who is solely paid by tax dollars, I find it odd that his political agenda to undermine american liberties, for personal political gain has even been allowed to continue this long. Since when did he become a king? He doesn't dictate what we can and cannot do based on his recommendations! He was wrong in the beginning! He LIED! He told us that "social distancing" and "stay home stay healthy" was to not overwhelm the hospital systems! He was wrong! He is dictating and abusing his power using fear tactics for political gain! Tuesday, May 19 from 1-3 pm: Senior Mavericks will be coming to MHS in alpha based herds to pick up their caps and gowns. This is going to be our best chance to welcome, greet and congratulate the Class of 2020! We are hoping to get a large staff turn-out for this event. Yes, we will be following safe social distancing practices. We will need staff to help hand out the caps and gowns and to manage the flow of traffic, etc. We are also planning on creating a Staff Gauntlet for the seniors as they exit the campus. Yes, we are hoping to have staff present for the whole two hours. Tuesday, June 2nd: The Edmonds School District has contracted with a professional production company to record all of the district's commencement ceremonies. On June 2nd, MHS has a five hour production schedule from 9 am to 2 pm. Several things will happen during this five hour production window. There will be student speeches, music and the receiving of diplomas. Senior Mavericks will again arrive in alpha herds in order to maintain social distancing. Students will have their names read, will receive their diploma covers and have their individual picture taken as they cross the stage. This event will be closed to the public.

Trinity Catholic School is requesting that our students sell raffle tickets despite our current situation. I feel that this is putting students, families, and the community at risk as this will require them to meet with many people to attempt to sell a large amount of raffle tickets. We usually do not have a problem supporting the fundraisers at Trinity Catholic Schools. However at this point we feel that this could potentially undo the hard work that our community has done to fight COVID-19. Also we are concerned because the school officials do not seem to have a reasonable solution to getting the tickets sold to the public without students having contact with neighbors, family, and friends. We hope that your office can help with this issue as we want to protect our family from COVID-19.			information@trinityspokane.com

TRUE	04/01/20 3:29 PM	Other Agency	Essential business not following social distancing requirements	Other	Landfill	Upper Valley Disposal	Swanson mill	Oroville	The local landfill servicing agency and the county with limited service in a large rural area is not allowing the public to dump household garbage and when asked what people are supposed to do that live outside the service area we were literally told to let it pile up. We have a house less than a mile from said landfill and when we got there this morning someone had dumped a truck load of garbage in front of our house, people are dumping their garbage off at a game reserve and along side mountain roads. To put this in perspective, when you pull into the local landfill you park on the scale, stay in your vehicle and talk to someone through a driveup window, they tell you to back up to one of several areas that easily meet the social distancing requirements, you unload and pull back on to the scale, still in your vehicle, you hand money through the window to the clerk (not different than a drive thru) and your on your way. The county "engineer" responsible for the moronic shut down then says well cash has gone through "so many hands" and my answer to that is the clerks in other businesses are wearing gloves... he did not have a response to that. This is causing more health issues esp when people are getting garbage dumped on their property and having to clean it up and the county workers are going to have to clean up other dumping sites. He came very close to my window and he did not have a mask and he did not advise me that I was allowed to close my window. I asked him to back up for social distancing. He backed up some but was still very close. I am very upset that I was potentially exposed in this manner and request that law enforcement be required to wear mask when approaching vehicles for traffic infractions. I called the Bonney Lake Police Department to voice my concerns and the Chief of Police kindly called me back. However, he told me that some of his officers have been exposed to COVID which only upset me further. Essential businesses all over Washington are figuring out how to conduct business without exposing people to this life-threatening illness and it is appalling that a police department would not make the effort to do the same. I am 57 years old, which I believe is old enough to be considered in the high-risk category. Officer Kreider had no idea when he approached my car of my age or whether I have an underlying condition. We produce fuel and oil additives for motor vehicles. Most of our products are shipped overseas. Our products are not being sold to stores in the US, only a few auto shops. The day after Inaize made his stay at home order. We had a meeting the next morning about whether we're essential workers or not. My coworkers and I do not consider my job essential but my employer thinks otherwise. We were told that if we didn't feel safe working, we could use our sick leave to take 2 weeks off. The employees working in the office area gets to work from home. Most of us down in the warehouse do not feel safe and don't have enough sick leave to take 2 weeks off. So we have to continue working, risking our health and our family health at home. Or risk losing a paycheck by staying home without pay. Today March 30th, we found out that one of our employees were tested positive for covid-19. The infected person has been out of work for 10 days but before that we don't know if they have contracted the virus before showing any symptoms. And has been working alongside us. We know that symptoms doesn't show up until 2-14 days. That scares us and leaves us questioning about our own health, because we have been in contact with them. My employer still haven't issued us to shut down but to continue to work knowing we may have been exposed to someone that tested positive. TRUE	03/30/20 4:50 PM	Essential Business	Business function performed that is non-essential	Other	Retail Wireless Cellphone Provider	T-Mobile	12920 SE 38th Street	Bellevue	Many T-Mobile retail stores will re-open April 1. Distr Mgr/Team Mgr's are expected to return to work also. This is concerning due to the nature of the job. Mgr's travel to up to 14 different stores for their role, which includes trickling corporate information to retail i.e., retail compliance and sales initiatives. I'm concerned due to the unnecessary exposure of both the mgrs and retail employees coming in contact with them. Requiring visits to such a large number of locations increases the chance of contracting the virus and becoming a vector of transmission. Along with this, it is unnecessary for risky travel exposure when job duties can be performed remotely from home via phone/email. This also puts their family members they come home to in a risky position for becoming sick. Taking into account the number of T-Mobile stores in the state, it has potential to have a large negative impact on efforts to contain the epidemic.

TRUE	05/14/20 7:43 AM		Other Agency	Large gathering(s) of people	Other	Packing Warehouse	Monson Fruit	252 N Rushmore Rd	Selah	The city of Sequim has given the authority to the local "Sequim Farmers and Artisans Market" to advertise and hold a "modified" opening of the Saturday farmers market from 9 am to 1 pm, beginning May 16, 2020. This farmers market will no doubt continue every Saturday after this if not stopped. This will draw large gatherings of over 100 people, especially since it is the only event to attend and many out of town visitors will be drawn into the area. I see no way this large open area will allow control of any contact tracing or social distancing. This is NOT an essential business, since the markets and grocery stores supply a good amount of produce, so individuals who farm are not needed, as no one has gone without fruit and vegetables in the months since the lockdown order has started. I urge you to stop this huge mistake that will set back the governor's attempt to stop this virus by reducing large gatherings. This association of farmers has no contact number on their flyers but the Sequim city hall owns this property that is the site of their building and runs the events where it will take place in just 3 days. I was able to enter with no restrictions as to how many of us were to enter. I found myself in this very small facility, NOT 6 ft. apart from the next person. There were NO 6 markings on the floor. We had to sign in & wait to be called to give our information to the clerk. There was NO hand sanitizer after I signed in with the pen. There was NO Plexiglass barrier at this sign-in desk. There were NO signs regarding coronavirus safe practices that I could see. There were NO provisions for seniors posted that I could find & seniors are the most vulnerable. I mentioned to several staff personnel that this was not a safe environment and that I felt safer in the grocery store. I was told that there was nothing they could do and was given a card with another facility that I could make a complaint to. I had to wait to be called to give my personal information and had a choice of sitting down in this cramped area or go outside and wait 15-20 mins. I did not want to lose my place to be called, so I chose to wait inside with everyone else there. It was uncomfortable sitting so close to people. When I got home I called Grandridge PSC (509.738.0100) & talked with Sherri. She said she would talk with the staff re: my complaint. We also discussed the possibility of using "beepers" so people can wait outside in safety and not lose their place in line. My concern is that there are no signs alerting a person to being Covid19-safe, and there are no provisions for safe distancing & safe practices once inside. I asked for the manager name and number to report the health violation, but she gave me her own name and number (Sabrina, 206-712-8600) and was excessively rude and disrespectful to me on the phone when I called, and refused to acknowledge the concern or give me her manager's contact information. We have just been informed that we are on the lower part of the "essential list". In our opinion, there is no person, more or less essential than any other. Our main focus is now, and will always be the safety and health of our community. We know that when people exercise regularly, practice appropriate eating habits, and maintain a healthy body composition, they improve their overall health. These habits increase longevity, boost immune system, significantly reduce risks of age related injuries, and maximize mental/physical functionality throughout life. Over the past 20 years, we have dedicated our lives to encourage as many people as possible to practice living a healthy lifestyle. We have put a significant amount of thought and consideration into the following decision. We are a small business and currently have been forced to shut down. We have been classified as "non-essential," and are forced to stay closed until 1 person decides that we matter. The difficult part for us is that we made a commitment to our families and community that we would provide a world class fitness resource center that delivers the highest level results. We have been silent long enough. We have given plenty of time. We have sacrificed everything we can. We are getting no help. We have to stand up. We will not go out without a fight. Beginning May 5th 2020, we are inviting any of our NWFITCO members to join us. We will be "exercising our rights" to peacefully assemble. As a resident, I don't want a sea of people (as pictured on their website. https://www.runrocknroll.com/en/Events/Seattle), descending upon Seattle in just 45 days when I will am unable to go back to work. It is profoundly irresponsible to allow this event to happen in our city, as we haven't even begun to inch back towards normalcy. This weekend was originally WSU Mom's Weekend which was cancelled by the University. I am here to pick up my daughter and return home to Denver but while staying here, there has been multiple groups of other guests co-mingling in the lobby with over 10 people, the front desk agent asked them to disperse to adhere to social distancing guidelines but the group just went outside and hung on. Overhearing conversations they were not all here together but they all mentioned that they don't care what the government says, they aren't going to shelter in place as they don't care if the virus kills other people. Due to this issue, I have decided that I am packing up my child's stuff tonight and not staying at this hotel and driving straight home. This is appalling and I know the desk agent tried his best but in reality hotels should not be allowed to stay open for public use, it promotes this kind of poor behavior.

The past few days it has been like Black Friday at these homes and people are also bringing the entire family then letting kids play on our community equipment. I feel sorry for the neighbors because all those people are potentially contaminating them and the agents are grossly unprofessional. My children are out of school, my wife cannot work because she is a nurse in a clinic that is non essential, and I also cannot work. Why are real estate people allowed to work especially when they don't follow the rules. That is so unfair and shows me they are really arrogant, selfish people that are only worried about themselves and a paycheck. We are struggling as much as they are but are FOLLOWING THE RULES. If people cannot dine in why are they allowing customers to go in and out to order food and pick up their order IN the restaurant. Doesn't that defeat the purpose?? If they are closed should all Pick ups be outside the restaurant or curb side. or are we going to wait until one of the customers or workers gets sick with the virus. remember people could spread the virus with out any symptoms.	mosspj@yahoo.com	Patricia Moss	15093719067

TRUE	05/01/20 3:56 PM	No Agency	Business function performed that is non-essential	Other	Manufacturing	Pabco roofing products	1476 thorne road	Tacoma	Governor inlee. I work for a manufacturing plant "Pabco roofing" in tacoma watching under the Pacific Coast Building Projects that specializes in the making of roofing shingles. As you can expect they have been changing at the bit to reopen. Much to the dismay of the employees. Any plan they make to provide a safe environment is lip service. The only intent is for them to make money for their own selfish reasons. First off we do not have private work stations which we can safely social distance. We have certain on the job procedures that make it impossible to practice social distancing. Secondly, many of our co workers who have unattended children at home with no day care will not show up to work leaving the burden of covering their shift to fall on another worker. That means instead of being home with their families. They will be forced to work a 16 hour shift instead of being home with their families. Thus further exposing themselves to this virus. Somehow they fall under the residential construction umbrella but i sure you it is anything but. Please reconsider opening up businesses such as this that are more concerned with their bottom line than they are with the health and safety of their employees.

According to them their occupancy is 500 which doesn't seem right for the size of the restaurant. In addition, some of their spaces such as their banquet room and bar are closed but their dining space and a lounge area are open but packed with clients and employees. Management is not respecting the social distance neither the 25%occupancy per space, all tables are filled with guest and there is none a single table empty. This restaurant is not conscious of the magnitude of covid 19 and how the virus can get spread. Other restaurants such are doing amazing job by protecting their employees and clients by only operating 25% but not nicks and Sam's.	Karen_paola6@yahoo.com

I was just informed through a verbal communication from my supervisor (I was not allowed to have it in writing) that merchandisers across the country will be going back to work officially next week (4/27/2020) Please keep in mind that this means 1000's of additional workers will be standing in the aisles of groceries, pharmacies, and big box stores to stock a non essential item (greeting cards) Many of these card display isles have high profile locations, directly in front of registers, beside of diaper and baby formula shelves, and also along breezeways where people stand in line. Merchandisers have up to 8 or 9 accounts at different stores that they service. For example, I have 8 different stores that I visit by foot, as parking is expensive in downtown Seattle. It will be impossible to contact trace these merchandisers that are visiting multiple grocery stores and pharmacies, and are exposed to 1000's of shoppers daily. All to stock greeting cards, an item that people browse for hours, touch, pick up, and place in a wrong location that has to be touched and placed back into a correct location. It is a tedious and time consuming process and absolutely not essential as the company has falsely deemed. Not to mention that American Greetings has an on line presence and is able to continue business virtually rather than physically. They recently contacted their marketing person to see if they could put a hold on their monthly marketing due to trying to save money during the shutdown. They were sent a Facebook live video from their marketer stating how to get around the order and encouraging them that they were still allowed to install fences at any residence in Washington State as long as the homeowner stays inside. I have the video which has been widely circulated. Obviously if his information is correct my friends would like to get back to work. However, I suspect that it is not, and this company is encouraging contractors to break the stay at home order. My fear is that small business contractors will heed his advice and risk the reasons for this order as well as be penalized for doing what they think is following the order. Please tell us the YOY TOTAL mortality in March, April, May 2020 vs. 2017, 2018, 2019 for all causes of death, not just COVID-19. Yes...it does vary from year to year. Sometimes the flu kills 35K in US and sometimes 75K (see CDC website for mortality history). Heart disease and cancer are the most deadly, kidney disease, diabetes, and flu / respiratory illnesses will kill people every year. Please either show the data of a real threat (substantial number of increase in total deaths in Washington State, not just COVID-19, which was never tracked before), or stop promoting this crisis story.
