

George,

It appears there is more heat on us than I thought, but all should be fire. I don't think they know who you really are, so you should be good. I need you buddy, I need you to come through like you did in that KPHO story in 2012. In fact, it wouldn't surprise me if being selectively prosecuted the first time made me a victim of your success.

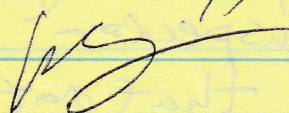

This conspiracy is more than just Nyhus, SIS, and some dumb ass deputies. Today, a guy named Mark Nordquist from the US Marshals admitted to spying on me for months. Says he is the "Security Coordinator" for the "Protective Intelligence Inspector." Says he got on because of that rat at Sheridan that made up that bullshit. He intercepted my first communication to you, so here is a copy. You know what to do with it.

In addition I want you to find out all you can about this Nordquist guy. He says he protects agents of the Occupational Government as well as buildings used to carry out their crimes. I suspect him of also working

you're reading this than you know I

lies hasn't changed.
